Wright of East St. Louis and was waiting for a car after spending the evening with his parents, who live at No. 8236 Church road. A negro was standing near the corner and began using abusive language. Burgess remonstrated with the negro, who, he says, pulled a knife and slashed him across the neck. The negro escaped.

Tax Values in the County.

Tax Values in the County.

The total assessed valuation of real and personal property in the county, according to the figures returned by the board, is \$26,683,000. This does not include the railroad assessment, which is made by the State Board of Equalization. Last year they were assessed at \$2,690,000, and it is not thought the valuation this year will be less. The total valuation of the county will accordingly be over \$30,000,000.

The county tax rate is now 50 cents on the \$100, but the Constitution requires that it be reduced to 25 cents when the \$30,000,000 mark is reached. This the County Court objects to doing on the ground that the county cannot stand the loss in revenue. Presiding Judge Wilson said yesterday that the court would probably take advantage of the constitutional amendment passed at the last election, authorizing the establishment of an additional 15-cent road tax.

Rheumatism and Neuralgia

Ages Are Conquered by Swanson's "5-DROPS."

If you are suffering from Rheumatism or Neuralgia you should get a bottle of Swanson's "5-DROPS" at once and give it a trial. It is an internal and external remedy which has never failed to cure these ailments, no matter how long standing or how severe the cases may be.

Rub a little of "5-DROPS" on the aching, painful parts for a few minutes and you will find immediate relief. Taken inwardly it will cleanse the blood of all poisonous matter and effect a permanent cure. This is the only correct treatment for Rheumatism and Neuralgia. In both of these diseases the blood is affected and while oils and liniments will afford temporary relief from pain, a cure cannot be obtained unless the cause (poisonous matter in the blood) is removed. Get the blood pure, the system in a good healthy condition and nature will do the rest.

Missouri Institute of Homeopathy Discusses Firtration Question.

Whether Mississippi River water at St. ouls is contaminated by the Chicago Drainage Canal was a question discussed at the second day's session of the Missouri Institute of Homeopathy at the Southern Hotel yesterday. The homeopathic physiclans decided unanimously that the water here was as pure as eny in the world.

A paper read by Doctor David Overman on "Sanitary Science," in which he referred to the old question in a casual way, prepoint that the water from the drainage canal purifies itself long before it passes St. Louis and that with filtration the Mis-

St. Louis and that with filtration the Missiasppi fluid will be as good in looks as it is wholesome in quality.

Most of the physicians present gave their views to the same effect, and Doctor Lewis P. Crutcher, secretary, remarked that, "after all, the objection to the water was only a bluff, because it is not water that has made St. Louis famous."

The annual election of officers resulted as follows: Doctor L. E. Whitney of Carthage, president; Doctor W. A. Forster of Kansus City, vice president; Doctor Lewis P. Crutcher, general secretary; Doctor W. E. Relly of Fulton, provisional secretary; Doctor D. M. Gibson of St. Louis, treasurer.
